

**POSITION: Senior System Administrator**

**LOCATION: Spain**

**CONTRACT: Starts ASAP, Full-time/Staff**

**CONTACT: [maryanna\[ @ \]rachelelewis.com](mailto:maryanna[@]rachelelewis.com)**

RLT is a recognized global leader in VFX and animation talent acquisition. We have over 25 years of experience originating from our work inside top-tier Hollywood studios. Our clients hire our firm to assist in their senior talent acquisition needs (we are not your ordinary recruiters, nor are we “headhunters”).

We are seeking a **Senior System Administrator** for our client, an award-winning creative production and post house based in Spain. With a focus on VFX, CG, and Animation, this young spirited company has a wide international scope with clients that include major brands, entertainment artists, game studios, and more.

### **JOB SUMMARY**

The **Senior System Administrator** will serve as the first point of contact for staff seeking technical assistance.

### **RESPONSIBILITIES**

- Edit and create Python scripts in the Shotgrid/Deadline environment
- Check and set up computers and necessary peripheral devices
- Install and configure appropriate software and functions according to specifications
- Install, configure and monitor all relevant IT-components within the company
- Identify equipment shortages and report
- Create, maintain and publish relevant documentation of the internal knowledge base Manage system monitoring tools and backups
- Perform Troubleshooting to diagnose and resolve problem

### **REQUIREMENTS**

- Experience in VFX production studio environment
- Experience with Windows Operating Systems (Windows 10 / Server 2019)
- Experience with Mac os operating systems
- Experience with Linux operating systems
- Scripting Python, Bash, Powershell

- Strong knowledge in Microsoft-based technologies such as Active Directory, DNS, DHCP WSUS, Group Policy Objects
- Knowledge of virtualization technologies is an advantage (VMware / Proxmox)
- Knowledge of backup and recovery technologies (Veeam, Backup Exec)
- Strong understanding of networking, routing, switching, firewalls Knowledge of Databases (Postgres, SQL)
- Fluent written and spoken communication skills in English
- Strong analytical skills and a good problem solving ability
- Flexibility and reliability combined with high quality standards

If you are interested in talking about this opportunity, please email us and include your ***resume or CV***.

If you fit the criteria, the next step would be setting up a phone call where we can give you the full download after signing an NDA requested by our client.
